What is this product?

TYPE

The product is a sub-fund of Planetarium Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Sub-Fund's objective is to increase the value of units over the medium term.

The Sub-Fund is actively managed without any reference to a benchmark. The Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.

This Sub-Fund is invested primarily in Euro-denominated fixed or floating rate bonds of top quality issuers, traded on a regulated market. On an incidental basis, the Sub-Fund may hold ancillary liquid assets (up to 20% of its net assets) in order to cover current or exceptional payments or for the time necessary to reinvest those Ancillary Liquid Assets in eligible assets. It may also invest in deposits and money market instruments as well as in mortgage-backed securities and asset-backed securities guaranteed by top-quality borrowers, these are transferable securities. In any case, investments in convertible bonds, convertible notes and warrant bonds may not exceed 25% of the net assets of the Sub-Fund.

The Sub-Fund may also invest in bonds denominated in other currencies and up to 20% of its assets in bonds rated lower than investment grade or without rating.

The Sub-Fund may also invest up to 10% of its assets in the units of UCITS and other UCI.

In order to manage foreign exchange risks, investments in currencies other than the portfolio's reference currency may be hedged.

The Sub-Fund may invest up to 10% of its net assets in contingent convertible bonds (hybrid debt securities designed to absorb their issuers' capital losses).

The Sub-Fund may use Securities Lending transactions up to 100% of the Sub-fund's net assets (expected percentage 30%) to generate additional capital or income.

Sale of shares in the Sub-Fund can be made on any business day.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Sub-Fund.

Any income arising from the Sub-Fund's investments is reinvested and reflected in the value of your shares.

INTENDED RETAIL INVESTOR

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years EUR 10 000		
		If you exit after 1 year	If you exit after 3 years

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundSight S.A. is unable to pay out?

FundSight S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from FundSight S.A.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds of the Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 238	EUR 724
Annual cost impact (*)	2.4%	2.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.9% before costs and -0.5% after costs.
