What is this product?

TYPE

The product is a sub-fund of Planetarium Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Sub-Fund's portfolio will invest in equities, similar transferable securities (e.g. convertible bonds) and fixed-income or floating-rate notes admitted to official listing on a stock exchange or dealt in on another Regulated Market.

The Sub-Fund is actively managed without any reference to a benchmark. The Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.

According to market movements and investment opportunities, the Investment Manager may invest up to 70% of the Sub-Fund's net assets in equities or similar transferable securities mainly of international companies.

The Sub-Fund may also invest up to 20% of its net assets in bonds rated lower than investment grade or without rating.

The Sub-Fund may hold Ancillary Liquid Assets (up to 20% of its net assets) in order to cover current or exceptional payments or for the time necessary to reinvest those Ancillary Liquid Assets in eligible assets. It may also invest on an ancillary basis in units of other UCIs, as well as in deposits and money market instruments.

The Sub-Fund may invest up to 10% of its net assets in SPACs that are eligible and qualify as transferable securities within the meaning of Article 1 (34) and Article 41 of the 2010 Act and Article 2 of the 2008 Regulation.

In order to manage foreign exchange risks, investments in currencies other than the portfolio's reference currency may be hedged.

The Sub-Fund may use Securities Lending transactions up to 100% of the Sub-fund's net assets (expected percentage 30%) to generate additional capital or income.

Sale of shares in the Sub-Fund can be made on any business day.

Please refer to the Prospectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Sub-Fund.

Any income arising from the Sub-Fund's investments is reinvested and reflected in the value of your shares.

INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

The Depositary is BNP Paribas, Luxembourg Branch.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years EUR 10 000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 6 650 -33.5%	EUR 7 220 -10.3%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8 440 -15.6%	EUR 8 960 -3.6%	This type of scenario occurred for an investment in the product between March 2017 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	EUR 10 090 0.9%	EUR 10 220 0.7%	This type of scenario occurred for an investment in the product between May 2020 and May 2023.
Favourable scenario	What you might get back after costs Average return each year	EUR 11 640 16.4%	EUR 12 110 6.6%	This type of scenario occurred for an investment in the product between September 2022 and September 2025.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundSight S.A. is unable to pay out?

FundSight S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from FundSight S.A.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Company. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds of the Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 474	EUR 977
Annual cost impact (*)	4.7%	3.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.8% before costs and 0.7% after costs.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 2.50% of the amount you pay in when entering this investment.	Up to EUR 250
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.77% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 177
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 0
Incidental costs taken under specific conditions		
Performance fees	The performance fee will be equal to 15% of the positive difference between the NAV of the sub-fund and the highest NAV since its creation. The reference indicator is a high-water mark (HWM). A performance fee is paid when the sub-fund overperforms its previous HWM over the calculation period, corresponding to the end of each quarter. The performance fee is calculated and accrued on a daily basis. It is crystallized and paid at the end of each quarter. However, any underperformance of the sub-fund has to be recouped before a performance fee can be paid. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 47

How long should I hold it and can I take my money out early?

Recommended holding period: 3 years.

The recommended holding period was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible at any time and without limitation. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 2 p.m (Central European time) on one (1) Business Day (any bank business day in Luxembourg) preceding the relevant calculation day of the NAV. Redemption proceeds shall be paid in the relevant reference currency usually within two (2) Business Days following the relevant calculation day of the NAV.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Sub-Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
